Requirement Number	Description	Contributor Name
1	There will be a sign-up and sign-in feature	Varun Krishnamoorthy
2	Users should be able to create a goal using a SMART framework (see it here: https://en.wikipedia.org/wiki/SMART_criteria). For each goal, a user can write the name of the goal, the description related to the SMART, and the due date.	Tristan Schmidt
3	They should be able to see the list of goals that have already been created.	Varun Krishnamoorthy
4	Once they have set a specific goal, they should be able to break it down into achievable targets. The targets can be numeric (e.g., drink eight glasses of water), boolean (e.g., when completion can be described in simple "done/not done" terms), monetary (e.g., saving X$ of money per week), or task-related.	Tristan Schmidt
